LJ 4240 /4250	CF	JM30100C	Officejet MFP X555	USB-2	JM30100F
LJ 4250	CF	JM30100C			

1: The printer must be equipped with 256MB of RAM minimum

Note:

- N/TN/DTN/DN/X/XH versions of these printers are also supported.
- Printers must have one CompactFlash or host USB slot available for this solution (or DIMM slot if CompactFlash and USB are not accepted on a specific model).
- Other printer models may be supported in the near future. Please contact us if you need information on the support of other devices.
- Older devices can be supported using the BarDIMM Box.
- BarDIMM Pro modules are specific to the printer model and cannot be plugged into other models.

Other printers

Printers and MFPs with full PCL5e language capability can benefit from BarDIMM Pro features using the [BarDIMM Box](#) and [BarSTORM](#) solutions.

1: The printer must be equipped with 256MB of RAM minimum
